

# Automatic Time Tracking – Save Time and Reduce Errors!

**Save time and reduce costly errors** by allowing your employees to track their own hours online and eliminate double input. It can be a real pain to track employee hours and re-enter the data, especially when you have to follow complicated overtime rules.

**Reduce costly errors** by automatically calculating total hours worked (including overtime)

**Reduce compliance risks** by applying state and federal overtime and double time rules

**Save valuable time** eliminating double input by allowing employees to enter their own hours online.

**Fully integrated with payroll** so you never have to calculate or re-enter hours

**Easily review and adjust hours** to fix employee mistakes

**Automatic Email Reminders** to employees when timesheets are due

**Flexible options**

- *Online timesheets on a password protected website and/or*
- *Multi-user online time clock where employees can clock in and out*
